with the black-eyed senoritas. A Noted Murderer Captured. Jerry Barton, the cowboy who shot a Mexican at Charleston, Cachise county,

was captured by Sheriff Paul early Thurs-SCENDAY dinners at the Palace Hotel day at the railroad depot. Barton and Maria Peraita, Oct. 8, by Arthur was trying to escape westward, and came in on the west-bound freight liste as Deputy Sheriff at Empire. which arrived here a little before daylight. As the train approached the depot Barton jumped off near the coal bins, but was discovered in the act by Sheriff Paul, who was watching for him, and was captured without difficulty. Barton is one of the most noted crim-

of the obsequies of Presi. his life. Last summer he shot a man named Merrill, at Charleston, was arrested and upon examination admitted to bail. He shortly afterwards disapima City from Colorado, and expects peared, and it was reported that he had been killed in New Mexico. The grand jury of Cachise county therefore brought no indictment against him and exonerated his bail. He shortly afterwards resupply of stone from the quarry, the appeared at Charleston and hommitted the bloody deed for which he is now held in custody. About two years ago Barton killed a man in Phenix, and in almost every place in which he has re-

The editor of the Florence down on the ledge and ore taken from the lands are the many lands in the ma

THE MINERAL LEDGES Are very prominent, and in places can be seen for miles. At some points they crop out above the surface rocks to a hight of fifty feet, and vary in width from ten to one hundred feet. They run 12 of N E north and south generally, but now and then a cross ledge is found. Most of them show low-grade mineral on the sur face, consisting of galena and silver, and out of this fact, perhaps, had grown the idea that the mineral was all low grade. But recent developments have corrected | the this erroneous notion. We established our first headquarters at

THE SEVEN COTTONWOODS. At which point are located the camps of Mr. C. D. Henry and Thomas B. Fish, on a small plateau nestling at the base of Mineral Hill. Under the guidance of Mr. John Sibbald we first visited

2862 5-10 ounces in silver. The assay gomery and John Hora, value of the latter of \$3738,92. ver twelve feet in height, twelve feet in width, and four hundred feet in length. above the surface rock, and it is a rea-Charles Hudson, of the banking firm f Hudson, Safford & Cc., is absent in Cottonwoods camp) is admirable with a face beautiful enough to earry out your design."
